COMMERCIALIZING AQUACULTURE

Acquisition of a large Cold Chain / Food Importer company

FDI is working on a deal to acquire a **30** year old Cold Chain / Food importer company, although details of the deal is classified at this moment, we are proud to announce that negotiations are positive and we are **90%** from closing the deal!

With this acquisition, FDI's revenue will have a boost of more than **600%** with a profit increase of more than **100%**!

That is all for now, stay tuned for more updates!

GOODNEWS

"A word from our Chief Executive Officer" - STEVEN TAN

The newly acquired company has been dealing in importing of meats, cold storage facility and distribution within Klang Valley for the past **30** years. There is a significant synergy here for FDI as we plan to venture downstream into **B2B** or **B2C**.

This collaboration will not only immediately increase our revenue by **600%**, it opens up a variety of expansion opportunities in the near future.

This is truly a major milestone for FDI.

"TNB SUBSTATION AT SENARONG FARM 24 PONDS

Thanks to our operation team and TNB consultant, after association with TNB, we are able to increase our electrical capacity by **300 amp** and giving us more than enough juice to run at full capacity. We spend **RM100,000** to implement this project at Senarong farm and it will be fully functional at **February 2022**.

OMICRON CASES DETECTED IN MALAYSIA!

On **25th December 2021**, a total of **62** Covid-19 Omicron variant cases have been detected in Malaysia so the market of export will be again affected.

Our operations team is not affected as we fall under essential services, and as for shrimps price and sales, those are not affected because the general population have gotten used to the new norm.

UPCOMING MOVE BY FDI..

With the festive season just around the corner , FDI marketing team is planning to roll out our hamper styled prawns at Chinese New Year (1st February 2022), stay tuned!
