COMMERCIALIZING AQUACULTURE

MOU SIGN !

THE BEST OF ALL TIMES !

BIG NEWS

After a lengthy negotiation process, we've finally signed the MoU to acquire a 30-year-old Cold Chain / Food Importer company. Among the Top 10 meat importer and distributor in Malaysia, this company and generating more than RM 120Mil per year.

As part of the acquisition, we will have a cold storage facility capable of storing up to **300 tonne** and **2** retail outlets.

GOOD NEWS

"A word from our Chief Executive Officer " - STEVEN TAN

The newly acquired company has specialized in imported frozen beef, mutton, poultry and marine products. Imported origin included 5 country which is Australia, New Zealand, US, China and India.

With this acquisition, FDI's revenue will have a boost of more than **600%** with a profit increase of more than **100%** ! Stay tune for more exciting updates from our FDI group.

APPLY BIRD NET IN OUR FARM

In the recent months, there have been an increasing number of disease outbreak caused by migratory birds throughout Malaysia. Many farmers suffer heavy losses due to the uncontrollable outbreak spread by these birds.

“

To counter this threat and as part of our Bio-Security upgrade, we are implementing an “Aerial Fence” in the form of bird net on all of our ponds. Droppings from birds also contains high amount of bacteria and fungi. Nets also help to prevent birds from releasing their droppings into water and causing harm to aquatic livestock.

”

Aaron Tong

**Position:
Administrative
Operation
Manager**
